

Creating a Coaching Session

Creating coaching sessions for agent evaluations allows:

- Evaluators to recommend training for agents.
- The dissemination of important information to agents.
- Evaluators and Supervisors to document discussions with agents.
- Agents to provide feedback for the coaching they received.

To create a coaching session:

1. Select a published evaluation to initiate a coaching request:
 - From the My Evaluations grid (in the Main Portal), select the evaluation.
 - From the Evaluation Form page (in the Evaluations Portal), open the evaluation.

2. Click Coaching.

OK CANCEL HELP

3. Enter the date of the coaching session in the Date field (default is current date).
4. In the Coaching Request field, enter free-form text about the coaching session (up to 10000 characters).
5. To enter an action plan and/or goals for the agent:

1. In the Required Actions/Target Dates section, click Add a Required Action and select one of the options from the drop-down list:

- Text Entry - Allows you to enter text. Enter the desired text in the provided box.
- Knowledge Base - Click

to associate a knowledge base item with this required action.

- Click New Item. This button is visible only to Superuser and users with Knowledge Base Administration privilege.

Select Document or Link from the drop-down list.

- Document—Provide details and click Choose File to upload a document of up to 2 MB. The default supported file extensions are .doc, .docx, .xls, .xlsx, .pdf, .jpg, .jpeg, .bmp, .png, .ppt, .pptx, .txt, HTML (.html, .htm), MP3, MP4, MOV, and WMV. The system administrator can also set other file extensions in the management console. Click OK.
 - Link—Provide details and enter a link to the desired knowledge base. To verify the link, click the Test button. Click OK.
 - Link—Enter a link to the desired web page. To verify the link, click the Test button.
2. In the by field choose the date by which you want the agent to complete the required action.
 3. To add the required actions to Outlook (or other organizer software) on the required deadline as a reminder, click Add to Calendar. You will have the option to download or open the related ICS file. The subject line of the appointment is <agent name> - <Required Actions>.
 4. Mark the Completed checkbox if you are sure that the agent has finished the required action. The Completed checkbox is disabled once the coaching is activated.
6. Click OK.
 7. After you create a coaching session, you can go back and edit it later. There is a short lag between the time an administrator executes a job on an evaluation template and when supervisors/agents can view in the Pending Evaluations Actions section of the Agent Portal dashboard.
