
Group Coaching

Group coaching lets you (with group coaching privileges) create and assign coaching to one or more agents. Group Coaching is a new entity in the system; it is independent and not linked to an evaluation form instance (EFI). When you assign coaching to a group of agents, the agent can only view their own details.

You (as an auditor or supervisor) cannot create group coaching with an Evaluation Form Instance (EFI).

To access the group coaching page, click Evaluations > Group Coaching. This page displays a list of group coaching, including details such as Group Coaching ID, Name, activation date, the total number of participating agents, the number of acknowledged agents, the name of the creator, and the date of creation.

Use Case

Create a group coaching task.

Find out more

Let's say James is a supervisor and has feedback for his team. James sent a knowledge-based article and wants to ensure all the team members complete this coaching. To do this, James creates group coaching for all the agents in his team and assigns the knowledge-based article and a deadline for completion. After the agents have completed and acknowledged the coaching, James can check the status of the coaching.

Create Group Coaching

Ensure that you have the Evaluate-Create Group Coaching privilege.

To create a group coaching:

1. Go to Evaluations > Group Coaching.
2. Click the

New icon to open a Coaching form.

[View image](#)

The screenshot shows a 'Group Coaching' form. At the top, there's a 'Name' field with a dropdown arrow and a 'Description' field. Below these is a 'Notes' section with a text area and a character count '9982 Characters Left'. Under 'Notes' is a 'Confidential notes' checkbox. The 'Required Actions / Target Dates' section includes a dropdown for 'Knowledge Base', a 'Confidential' checkbox, a date field set to '07/05/2023', an 'Add to Calendar' button, and a 'Completed' checkbox. The 'Attachments' section has a note 'Attaching ICS files with 2 MB max file size each', an 'Attach a File...' button, an 'Agents' dropdown, and a 'Select Agents...' button. At the bottom are 'Save', 'Save and Activate', and 'Cancel' buttons.

3. Fill out the form as follows:

1. In the Name field, enter the group coaching name. This field is mandatory. You can re-use an existing group coaching name. Each group coaching will have its own unique Group Coaching ID.
2. If required, enter a description of the group coaching in the Description field.
3. If applicable, provide notes for the agents in the Notes field.

Use the Maximize icon to expand the Notes window. You can add notes about the coaching (up to 10000 characters) and then click Save.

4. Click Add a Required Action and select an option from the drop-down list:

- Text—Enter the desired text in the provided box.
- Knowledge Base—Click

Options to show available knowledge base articles. Use the Show Article From filter to select the article category.

- Link—Enter a link to the desired web page. To verify the link, click the Test button. Click OK.

5. In the by field, choose the date by which you want the agents to complete the required action.
6. To add the required actions to Outlook (or any other organizer software) on the specified deadline as a reminder, click Add to Calendar. You will see an option to download or open the related ICS file. The subject line of the appointment will be <agent name> - <Required Actions>.
7. Mark the Completed checkbox if you are sure that the agents have finished the required action. The Completed checkbox is disabled once the coaching is activated.
8. If required, click Attach a File to add a reference file. You can add up to five files, with each file not exceeding 2 MB. The default supported file extensions are .doc, .docx, .xls, .xlsx, .pdf, .jpg, .jpeg, .bmp, .png, .ppt, .pptx, .txt, HTML (.html, .htm), mp3, mp4, mov, and wmv. The system administrator can also set other file extensions in the management console.

After attaching the file, click Open to view it or Remove to delete it.

9. Click Select Agents to add agents to the group coaching.

The list of agents is shown based on the hierarchy and data restrictions.

- Hierarchy restriction—For example, if John creates a group coaching, he can see and choose agents within his hierarchy.
 - Data restriction—For example, if data restriction is applied to John wherein Supervisor = Jim Bush and Site = Tampa, he can see and choose agents who report to Jim Bush and are based at the Tampa site.
10. If required, use the Filters and search box to find agents by their first name, last name, agent ID, site, or supervisor.
 11. Select the individual checkboxes beside the agent names. You can click the checkbox at the top to select all agents on the current page. If the total number of agents in the system is less than the configured value, that is 10000, a Check All <number> items in this set option will appear, allowing you to select all agents in your system. Click Clear checked items to deselect selected agents.
 12. Click Move. The selected agents will appear in the right window under the Selected tab. You can remove agents by clicking the

Remove icon next to the agents or Remove All to remove all moved agents.

13. Click OK. The Select Agents window will close and the selected agents will appear on the Assigned tab. If you want to remove agents later, go to Select Agents > Assigned tab and click the

Remove icon to delete individual agents or Remove All to delete all selected agents.

4. Choose one of the following actions:

- Click Save and Activate to complete the form and send the form for coaching.
- Click Save to save the form and activate it later.
- Click Cancel or Close to exit the form.

If you attempt to close or cancel the form anytime while filling the form, a warning pop-up will appear. Choose one of the following:

- Leave to cancel the form without saving the details.
- Stay to continue filling out the form.

After saving and activating the form, if you make any changes, only the Save button is enabled.

5. The newly created group coaching will appear on the Group Coaching page.

If the Nexidia.Evaluations.AllowGroupCoachingEmailNotifications parameter is set to true and the group coaching is activated, an email notification will be sent to:

- The user who created the group coaching.
- All participating agents and their respective Supervisors.

Manage Group Coaching

You can edit, delete, view details, and check the status of group coaching based on your privileges, hierarchy, and data restrictions.

- Evaluate - Create Group Coaching—This privilege lets you see the status and details of group coaching you have created. You can see the details even if the agent has moved to another Team.

You can also see the status and details of group coaching created by others if the participating agents report to you. For example, if John creates group coaching for agents Lisa, Thomas, and Arthur, and Thomas reports to Supervisor Jim Bush:

- When John logs in to the QC portal, he can see the group coaching details and status of Lisa, Thomas, and Arthur.
 - When Jim Bush logs in, he can see the status of Thomas.
- Evaluate - View All Group Coaching—This privilege lets you see the details and status of group coaching created by others, subject to applicable hierarchy and data restrictions.
Find out more

Scenario 1

Let's say, Trainer-01, with the Evaluate - Create Group Coaching privilege, creates a group coaching - GC-01 and adds multiple agents with a data restriction set as Site=Tampa and Supervisor=Jim Bush. Meanwhile, Manager John Kemp has metadata mapping as Site= Tampa and Supervisor=Jim Bush and has either Evaluate - View All Group Coaching or Evaluate - Create Group Coaching privilege. When Manager John Kemp logs into the portal, he will be able to view the details of GC-01 (including Description, Notes, Coaching Action) along with the list of all agents (even if some agents are not part of Site Tampa and Supervisor Jim Bush). However, Manager John Kemp will only see the agent status for those agents that are a part of Site Tampa and Supervisor Jim Bush.

Scenario 2

Let's say, Manager Brenda Gills has the Evaluate - View All Group Coaching privilege with a data restriction for Site Reno. If Agent Cliff belongs to site Tampa and Agent Renee to site Reno, and Trainer-01 creates GC-03 and adds Agents Cliff and Renee. When Manager Brenda Gills logs into the portal, she will be able to view GC-03 (including description, notes, coaching actions, and agents Cliff and Renee. However, she will only be able to see agent Renee on the Agent Status page.

Scenario 3

Let's say, Manager Gallen Wickett has the Evaluate - View All Group Coaching privilege and agent Carl Del is under her hierarchy. If Trainer-01 creates Group Coaching GC-02 and adds agent Carl Del. When Manager Gallen logs into the portal, she will be able to view GC-02. However, if Trainer-01 creates GC-01 with Carl Del and four other agents who do not report to Gallen, GC-01 will show agents assigned as 5 but Gallen will see only Carl Del on the Agent Status page.

- **Override Access Rights**—This privilege lets you see the details, status, and edit all group coachings, regardless of any restrictions.
- **Evaluate - View and Edit Group Coaching by Others**—This privilege lets you see and edit group coaching created by others if all the participating agents report to you, subject to applicable hierarchy and data restrictions. If there are no restrictions, you can view and edit all group coachings created by others.

View Details

Click View Details

on the group coaching page to see the group coaching details if you do not have edit access.

View Status

Click View Status

on the group coaching page to see the status of agents assigned to the group coaching. Any updates to the group coaching will reset the acknowledgment status. You can use filters to search for group coaching by acknowledgment status, name, and agent ID.

On the Group Coaching Agent Status page, you can see the following agent status details:

- **Agent Name**—The name of the agent who is assigned the group coaching.
- **Agent ID**—The ID of the agent who is assigned the group coaching.
- **Acknowledged**—The acknowledgment status of the agent for the group coaching.
- **Agent Acknowledged Notes (Y/N)**—The status indicating whether the agent has added notes after acknowledging the group coaching. To view the actual notes, export the group coaching.
- **Acknowledged Date**—The date when the agent acknowledged the group coaching.
- **Follow-up**—The date when you followed up to remind the agent to complete the group coaching.

- **Deadline**—The deadline, if any, assigned for completing the group coaching.

Click the Export button to download the group coaching details in a CSV file. If you add filters, the system will export the details accordingly. The exported CSV file will contain the following information:

- **Name**—The name of the Group Coaching.
- **Agents Assigned**—The number of agents who are assigned the group coaching.
- **Agents Acknowledged**—The number of agents who have acknowledged the coaching.
- **Created by**—The name of the user who created the group coaching.
- **Created Date**—The date when the group coaching is created.
- **Activated Date**—The date when the group coaching is activated. Any changes to the group coaching later will reset the acknowledgment status to pending for all agents.
- In addition to the above, all details from the Group Coaching Agent Status page will be included - Agent Name, Agent ID, Acknowledged, Agent Acknowledged Notes (actual notes given by the agent while acknowledging group coaching, Acknowledged Date, Follow-Up, and Deadline.

Filters

The filters on the Group Coaching page lets you narrow down search results and find a specific group coaching.

To use filters:

1. On the Group Coaching page, click inside the +Type to add filter(s) text box.
2. Choose a filter from the drop-down list and enter the required information.
3. Click Show to display the results that match your criteria.

You can use the following filters to find a specific group coaching:

- **Activated Date Range**—Search by the date range when the group coaching is activated.
- **Agent ID**—Search by the Agent ID who is assigned the group coaching. You can select multiple agent IDs.
- **Agent Name**—Search by the Agent Name who is assigned the group coaching.
- **Created by**—Search by the name of the user who created the group coaching.
- **Created Date Range**—Search by the date range when the group coaching is created.

- Name Contains—Search by the group coaching name.
- Supervisor—Search by the Supervisor's name. All group coachings assigned to agents under the selected Supervisor will be shown.
