

Adding Notes to an Interaction

To learn how to assign a tag to an interaction, see [Assigning a Tag to an Interaction](#) to learn more.

To add notes to an interaction:

1. Select the interaction file that you want to add a note to.
2. Click Notes & Tags.
3. Enter comments in the Note Edit box.
4. Click Add.

To add a note to a specific location in the interaction:

1. Select and play the interaction file that you want to add a note to.
2. When you reach the desired location in the playback, click Add Note.
3. Enter comments.
4. Click Save.
