This Exercise Book follows the Hands-On Exercises presented in the Course Book. Here are the accounts used for these exercises.

User	Password	Description
nicetraining\niceuser	nicecti	Used to access the Lab Hopper machine.
nicetraining\niceservices	nicecti	Runs the NIA, QC, and MSTR services
nicetraining\niceadmin	nicecti	Administrative account to log on to the servers
superuser	password	Superuser account for the Applications
dvoss	nicecti	Evaluator in the system
smills	nicecti	Team Lead in the system
cswift	TBD	Agent in the system

New Installation

Details	Description
Applications Server:	NIA
Database	NXDB1
Search Grid	GRID1, GRID2, GRID3
NxDeployer Server	GRID1

1 – Session & TMS Creation

This section creates the Session and the Target Media Set used in the IA flows.

Use the C&C tool (located on the Desktop) to update the dates on the calls in the Billing folder to dates within the last 7 days

1. Create a new session and point it to the "Billing" media folder, select queries to apply on the interactions.
2. Run the Session Via the Session status tab.
3. Create a TMS and point it to the Session created in the previous step.
4. View results in the Discovery application.

2 – Ingest Exercise

This exercise guides users into exploring how to locate the log file and interpret the logging information

1. Create a new search term, "account 1."

Administration > Manage Term Lists > New Term List

PROPERTIES ACCESS RIGHTS

Save Cancel Load

Name: Test Media Type: Audio

Source File: Language: NAEnglishTeleUniversal-8.7.1.72728

TERMS

Search Term: account 1 Add

SEARCH TERMS

2. Define a new session CS Tier 1 that will use this term.
3. The Session will not ingest the files. Why? Investigate the Nexidia.Ingest.SupportLog file
Logs are located at C:\ProgramData\Nexidia\Analytics\Logs.

3 – Playback Scenario 1

1. Create a new session, in the " media file path" tab select the "CS Tier2" folder

Check (tick mark symbol) the file paths to be added

NAME	SIZE	TYPE	DATE MODIFIED
Billing		Folder	9/12/2025 3:02:45 AM
CS Tier 1		Folder	2/19/2025 11:49:15 AM
CS Tier 2		Folder	2/19/2025 11:49:47 AM
Stereo Calls		Folder	2/19/2025 11:49:50 AM
engage		Folder	2/19/2025 11:49:48 AM

2. Login to the Search application, select the first interaction (interaction number 594) and play it.

UPERVISOR	SITE	DIRECTION	DNIS	TYPE	CUSTOMER ID	CITY	STATE	ASSIGNED TO	MEDIA FILE NAME
ha Graves	India	Inbound	2265	Modem Rebate	264249	Little Rock	AR		05212005-594
ha Graves	India	Inbound	2277	Account Balan...	517699	Little Rock	AR		05212005-593
ha Graves	India	Inbound	2265	Service Inquiry	903911	Little Rock	AR		05212005-592
ha Graves	India	Inbound	2265	Bill Inquiry	536990	Little Rock	AR		05212005-591

- Go to the media folder located on E:\Media\Production Media\CS Tier 2 and delete this interaction (delete the 05212005-594.wav file).
- Go back to the Search application and try to play the interaction.

Were you able to play the interaction? Why?

4 – Playback Scenario 2

- Go to the media folder located on E:\Media\Production Media\CS Tier and delete the 05212005-593.wav file
- Login to the search application and try to playback interaction 05212005-593

UPERVISOR	SITE	DIRECTION	DNIS	TYPE	CUSTOMER ID	CITY	STATE	ASSIGNED TO	MEDIA FILE NAME
ha Graves	India	Inbound	2265	Modem Rebate	264249	Little Rock	AR		05212005-594
ha Graves	India	Inbound	2277	Account Balan...	517699	Little Rock	AR		05212005-593
ha Graves	India	Inbound	2265	Service Inquiry	903911	Little Rock	AR		05212005-592

5 –Create Profiles

This section creates profiles for the QC Users. You will need to create 2 profiles:

- Team Lead
 - Evaluator
- Login to the Main Portal (<http://nia/NXIA/main>). NOTE: use the Superuser account to login (password: password).
 - For the purposes of testing, it is recommended to grant all the privileges to each account.
 - The Evaluator Profile should be added to the Workflow Queue, but the Team Lead should not.
 - NOTE: Access to the Scorecards, Sessions, and Templates will be created in later sections.

6 – Create Users

This section creates the users for QC. These Users will be associated with the Profiles created in the previous section. They will be created using the Import process using a CSV file.

NOTE: In a production environment with DEF / Engage, the Users will be automatically populated.

- Steven Mills
 - David Voss
1. Import the Users.csv file located in the d:\nicetec folder
 2. The password for these accounts is nicecti.

7 – Create Agents

This section creates the Agents for QC. These Agents are associated with the Audio that will be used in the lab. They will be created using the Import process using a CSV file.

NOTE: In a production environment with DEF / Engage, the Agents will be automatically populated.

- Carl Swift
1. Import the AgentInventory.csv file located in the D:\nicetech\NIA 12.5\Users and Agents folder.
 2. The password for this account is not automatically created via the import. It needs to be added manually afterward.

8 – Create Session

This section associates a session with the Audio to be used for Quality Central.

1. Use the Billing Session which contains the Audio.
2. Grant access to the Evaluator Profile under the Access Rights tab.
3. The Session must be active to be used for Quality Central.

9 – Create Target Media Sets

This section defines what media from the Session should be used for Quality Central.

1. Create a New Target Media Set and point it Session created in the previous example.
2. In the 'Filters and Report Metrics' select the Average Duration & Average Interactions per Day metrics

10 – Create Evaluation Scorecard

This section creates an Evaluation Scorecard, which can be used to measure specific performance metrics.

1. Create a Scorecard and provide a logical name.

2. Select "Use in Portal Dashboard."

3. Include 2 columns:

Average Duration and set the goals to 80.

Update Column

*Display Name: Average Duration

*Metric: Average Duration (Sec)

*Target Media Set: QC TMS

Description:

Created date: 7/7/2020 3:25:17 PM

Created by: Administrator, Default - (superuser)

Modified date: 7/7/2020 3:47:59 PM

Modified by: Administrator, Default - (superuser)

*Goals: (Seconds)

Type: Single Directional

0 80

☐ Reverse

☐ Include "Caution" state

Goal Thresholds/Legend

☐ Good 0 - 80 Seconds

☒ Out of Bounds 80 - Seconds

(lower is better)

Note: Scores equal to Goal boundaries are always assigned the category that benefits the individual.

Average Interactions per Day set the goals to 3 and check the Reverse check mark

Update Column

*Display Name: Interactions Per Day

*Metric: Average Interactions per Day

*Target Media Set: QC TMS

Description:

Created date: 7/7/2020 3:47:59 PM

Created by: Administrator, Default - (superuser)

Modified date: 7/7/2020 3:47:59 PM

Modified by: Administrator, Default - (superuser)

*Goals: (interactions per day)

Type: Single Directional

0 3

☒ Reverse

☐ Include "Caution" state

Goal Thresholds/Legend

☒ Out of Bounds 0 - 3 interactions per day

☐ Good 3 - interactions per day

(higher is better)

Note: Scores equal to Goal boundaries are always assigned the category that benefits the individual.

4. Grant full control access to the Team Lead profile.

5. Select an appropriate threshold for the metric.

6. Grant access to the Scorecard to the agent.

11 – Create Evaluation Form Template

This section creates an evaluation form template that will be used by the Evaluator to conduct a review of agent performance.

1. Create a new Evaluation Template and provide a logical name.
2. Create a new category and add a new question.
3. Save the template.

12 – Create QC Workflow

This section creates a workflow to distribute interactions to review to the users with the Evaluator profile.

1. Create a new QC Workflow and provide a logical name.
2. Assign the Target Media Set created previously to this workflow.
3. Select the number of calls to be sampled.
4. Assign the queue to the Evaluator Profile (it should be assigned to the Queue, but not to a user).
5. Select the Template created previously for the workflow.
6. For the Close step, leave the defaults.

13 – Use Quality Central

These exercises show how the system works for evaluators, team leads, and agents. For this exercise, access the system using the Main (<http://nia/NxIA/Main>) and the Portal (<http://nia/NxIA/Portal>).

Evaluator

1. Login to the Main interface using the Evaluator User (dvoss account).
2. Add a filter for "Agent" in search and search for interactions for "Carl Swift". Find interactions in your queue. Highlight an interaction and verify there is audio.
3. Evaluate 1 or 2 interactions of Carl Swift using the defined Evaluation Form Template. Make sure the agent can acknowledge the evaluation.
4. Publish the evaluation (make sure it is accessible to the Agent).

14 – Use Quality Central

Team Lead

1. Login to the Portal interface using the Team Lead User (smills account).
2. Add a filter for "Agent" in their search and search for interactions for "Carl Swift".
3. Verify that evaluations created by the Evaluator are available.
4. Verify that the Evaluation Scorecard shows data in the dashboard.
5. Navigate to the QC Reports
6. Run an Evaluation Performance Report

15 – Use Quality Central

Agent

1. Login to the Portal interface(<http://nia/NxIA/Portal>) using the Agent account (cswift account).
2. Verify that evaluations created by the Evaluator are available. Acknowledge at least one evaluation.
3. Verify the Evaluation Scorecard shows data in the dashboard.
